

## Big Sky Insulations, Inc.

MANUFACTURER OF FOAM CONTROL EPS AND R CONTROL STRUCTURAL INSULATED PANELS

Dear Valued Big Sky Insulations Partner,

During this period of uncertainty, the safety of our clients, associates, and employees remains our top priority. Our goal is to minimize exposure to COVID-19 for all, and we are asking our partners to help us with the following:

- Please email your orders/questions/inquiries to your sales representative or project manager, or you can call our main office at (406) 388-4146. We are requesting you contact us by phone or email rather than visiting our office or production facility. You can find additional contact information on our website here:  
<https://bigskycontrol.com/company/contact-us/>
- If you have a business need that requires you to visit our offices, please do so only if you have had no exposure risk.
- Our field staff will be limiting their in-person meetings to those that are business critical. They will continue to extend outstanding customer service and assist with any project needs via phone, email, and video conferencing.

Our manufacturing facility remains operational and there are currently no impacts to either our supply chain or our ability to deliver products timely. If that changes, we will communicate those changes to you promptly.

We remain committed to providing exceptional services and Big Sky Insulations products as a “Better Way To Build”. Please feel free to contact us should you have any questions or concerns. We wish you all good health and resilience and look forward to our continued partnership with you.

Sincerely,

Brad Huempfer  
President  
Big Sky Insulations
